

## *Awning In Remodel Project Adds Interest to Rectangular Brick Building*

**Entrance awning  
"breaks out of the box"  
and helps to create an  
interesting sightline.**

The canopy for the Central General Complex in RI was constructed on a radius. Nothing about it was straight or square, rather it was built with triangular shapes, and each shape was individual, and angled to give the perfect pitch for drainage.

**Architect:**  
**Vianich & Caulfield Assoc.**  
**Contractor**  
**Massey's Plate Glass & Aluminum, Inc.**  
**Product:**  
**Painted Aluminum**  
**Location:**  
**Cranston, RI**

It was made of 1/8" aluminum plate which was painted with Kynar to match the curtainwall at the entrance.

What also made the project unique was a cone shaped columns cover constructed of matching aluminum plate.

**Weiss Sheet Metal, Inc.**
