

Custom Built Kiosks Permit Access to Building or Emergency Contacts

Weiss fabricates stanchions in all the standard stainless steel finishes and grades of architectural stainless steel.

Weiss creates durable, tamper and vandal resistant stanchions for a variety of uses. They are ideal for mounting intercom's, lighting, and card access electronics, and is especially appropriate for handicapped accessibility buttons.

Weiss works with both 304 and 316 stainless steel and have the ability to

fabricate with #4 satin, # 6 and the #8 mirror stainless. All seams are thoroughly welded and polished for a seam free exterior.

Shown below left is a half-round version fabricated from 1/8" muntz metal (brass) in a satin finish with a clear coating for exterior applications. The inset photo shows an optional rear access door for easy access to interior electronics.
