

Column Covers and Awning Create Attractive Entrance for Executive Drive

Bending capabilities and fine workmanship blend in manufacturing columns

Curving metal to follow unusual shapes can be difficult, but Weiss Sheet Metal was pleased to take on the challenge of these "football shaped" column covers. A smooth transition from top to bottom was achieved with a tight quality controls in their shop.

A matching canopy features a sloped bottom and once again Weiss was called upon to manufacture triangular shapes to flawlessly connect to oval shaped columns.

Architect:

Gary Edward Handel Assoc.

Contractor

Karas & Karas

Product:

Coated Stainless Steel

Location:

Boston, MA

Making perfect mitred joints then welding and polishing, Weiss achieved the desired results. For this project, Weiss worked with a # 4 satin finished stainless, but they also have the ability to work with #6 and #8 "mirror" stainless.
